## Work Based Learning Internships

### WORK BASED LEARNING INTERNSHIPS

The Southwest Minnesota Private Industry Council (PIC) received \$50,000 in LYFT Pathways Lac qui Parle Valley School District (LQPV), in partnership with Dawson-Boyd High School and numerous area businesses, received \$5,500 in LYFT Pathways funding to provide hands-on learning opportunities to students in their field of interest and teach them important job skills such as resume building, professionalism, and employability. Students will learn first-hand the critical technical and workplace skills that employers demand and help them solidify their desired career path prior the conclusion of high school. This exposure will hopefully lead them to pursue degrees in these fields and return to be employed locally or start businesses of their own.

For more information, contact Scott Sawatzky ([ssawatzky@lqpv.org](mailto:ssawatzky@lqpv.org)) or Paul Lowry ([plowry@lqpv.org](mailto:plowry@lqpv.org)) with LQPV.
